| Flammability               |              | UFAC                        | CLASS 1                                   |
|                            |              | NFPA 260-A                  | CLASS 1                                   |
|                            |              | CA TB 117-2013<br>Section 1 | Pass                                      |
|                            |              | ASTM E-84                   | CLASS A                                   |
| Colorfastness              | Light        | AATCC-16A                   | CLASS 5                                   |
| Emissions                  |              | California 01350            | Pass                                      |
| Hydrolytic Stability       |              | ISO 1419 Method C           | Pass                                      |

**Content:** 55% TPE, 35% Polyester, 10% Cotton

**Repeat:** 9"W x 18"H

## Features of EnviroLeather™

### Durability & Performance

- Resists cracking, peeling and delamination
- Superior chemical resistance
- Stain resistant, easy to clean and disinfect
- Resists sagging and wrinkling to maintain tight, tailored look
- Outstanding seam abrasion resistance and durability
- Does not support microbial growth when cleaned properly
- Designed for comfort

### Environmental & Health Safety Benefits

- PVC-Free, no plasticizers, phthalate-free
- Passes CAL 01350, low VOC emissions
- No added antimicrobial chemicals
- No perfluorochemicals (PFC-Free)
- No flame retardants, bromine-free
- No heavy metals
- Includes recycled and renewable content
- Animal friendly

### Disinfecting / Cleaning Information

Cleaning Code: S/W

EnviroLeather™ utilizes a high tech polymer that results in excellent chemical resistance and cleanability. The product is inherently more stain resistant than vinyl.

Visit [www.enviroleather.com](http://www.enviroleather.com) for complete cleaning instructions and a list of cleaners and disinfectants that we have tested.

### Antimicrobial Information

When cleaned properly EnviroLeather™ is inherently antimicrobial because it does not contain plasticizers or other additives that act as a food source for microbes. Therefore we do not add antimicrobial chemicals to our products.
