

# Debut textile cleaning instructions.

General cleaning and care:

Upholstery from LDI interiors is designed for easy care and cleaning. To maximize the lifespan of your material it is recommended that a regular cleaning schedule be maintained to keep the surface free from dirt and debris.

Vacuuming or light brushing is recommended to prevent dust and soil build up.

Spills and stains should be cleaned as soon as possible to avoid saturation with liquids.

Remove any remaining cleaning or disinfectant solution with a cloth and clean water, then dry the surface thoroughly.

Use a soft lint free cloth or towel and avoid cleaners containing abrasives.

Always try cleaning methods in a hidden area first to determine the result. See our Chemical Resistance Data Chart at [www.lidiinteriors.com](http://www.lidiinteriors.com) for information on other cleaners and disinfectants.

Ordinary Dirt and Water-Soluble stains:      Clean with mild soap and water.

Stubborn Stains:                                      Remove with rubbing alcohol\*

Disinfect:    Disinfect with 20 to 1 water to bleach solution

Cleaning Code:                                        S/W

Disclaimer: This guide offers suggestions for the care and cleaning of upholstery from LDI Interiors. However, not all stains can be removed, especially if the stains are not addressed immediately. This information does not relieve the user from the responsibility for the correct and safe use of the product and cleaning methods. LDI interiors is not responsible for any damage incurred with improper cleaning, or defects caused by improper use of cleaning solutions.
