Dear Valued Supplier:

Thank you for your acknowledgement and acceptance of Kaiser Permanente Preferable Purchasing (EPP) Process. With LDI's submittal of the Chemical Scorecard (attributes) and completion of a signed Letter of Agreement, the products listed in appendix A. are available for sale and distribution to all Kaiser Permanente Regions.

This information including vetted safer products and enhanced Supplier Summaries, where appropriate has been posted to Kaiser Permanente's InfoZone 2.0 landing page, which is utilized by National Facilities Teams, Local Project Teams and 3rd party Architects and Designers. Efforts are underway to explore the necessity and process of providing Suppliers such as LDI access to Kaiser Permanente's InfoZone 2.0. More information on this to be provided by late April 2017.

Should suppliers offer additional marketable products in the near future that met Kaiser Permanente's pledge to stop procuring products that contain chemicals of concern, supplier may submit those products to Kaiser Permanente utilizing the EPP attributes matrix. In addition, Kaiser Permanente expects to be notified within 30 days of any change or removal of approved supplier product listing and strives for supplier to develop a Kaiser Permanente specific landing page of approved products.

Additional information on this and other pertinent information can be found at <http://supplier.kp.org>
