Disinfecting/Cleaning Information

Cleaning Code: S/W

EnviroLeather™ utilizes a high tech polymer that results in excellent chemical resistance and cleanability. The product is inherently more stain resistant than vinyl.

Visit www.enviroleather.com for complete cleaning instructions and a list of cleaners and disinfectants that we have tested.

Antimicrobial Information

When cleaned properly EnviroLeather™ is inherently antimicrobial because it does not contain plasticizers or other additives that act as a food source for microbes. Therefore, we do not add antimicrobial chemicals to our product.
